

Rev. John S. Grasty, D.D., died at his home in Kansas City, on Wednesday, the 18th inst., aged 58 years. This intelligence is not unexpected. For many months, Dr. Grasty had been steadily declining, and the end seems to have been hastened by the death of a daughter in the early part of the present month. The weary sufferer, calmly anticipating his departure, was conscious to the last, and welcomed the summons to the immortal health and glorious rest of heaven. His body was buried at Mexico, Mo., the scene of his last pastoral charge, Dr. Stodert, his successor, and Dr. Brank, of this city, conducted the services. — *St. Louis Presbyterian.*
