TO
SYLVESTER S. MARVIN
GENEROUS FRIEND OF THEOLOGICAL EDUCATION
THIS VOLUME
IS RESPECTFULLY DEDICATED

PREFACE

THIS little work is intended to meet a need which has been keenly felt by the compilers in their teaching of Hebrew. To master a language one must acquire a vocabulary as well as learn the grammatical forms. While lists of words arranged according to the frequency of occurrence are available, no lexicon covering one of the prose books of the Old Testament and adapted to the needs of the beginner has heretofore been published. A student of Hebrew, after completing one of the standard introductory works, is plunged into the reading of a narrative of the Old Testament with either too much or too little lexical aid. He may turn to the standard thesaurus, the Hebrew Lexicon edited by Professors Briggs, Brown, and Driver; in this case he will be overwhelmed, confused, and discouraged by the wealth of details. It is more likely that the average American student will resort to such works as Feyerabend's "Hebrew-English Pocket Dictionary of the Old Testament" or Bagster's "A Pocket Hebrew-English Lexicon," mere lists of words, which give no information as to usage or idioms and in many cases do not recognize the results of modern philological studies. No substantial basis for Hebrew scholarship can be laid by the use of these meagre lists of words, which attempt to cover the entire literature of the Old Testament.

This vocabulary to the Book of Genesis is based upon an independent study of the Hebrew text. While all the great commentaries and lexica have been consulted, they have not been slavishly followed. The statistics as to the occurrence and usage of words is drawn directly from the concordances of Fürst and Mandelkern. Special effort has been made to give brief definitions for the particles, prepositions, and conjunctions, words which cause beginners difficulty. The numerals found with the words indicate the number of times the word occurs in the Old Testament. A dagger placed before an article indicates that all passages occurring in the Old Testament have been cited; the same sign placed at the end of an article indicates that all passages occurring in Genesis have been cited; thus a student

will be able to tell at a glance whether he should memorize the word or not, and at the same time determine if it has a meaning peculiar to the Book of Genesis.

This book of the Old Testament was selected because of the importance and extent of its subject-matter, the picturesqueness of the style, and the wide range of vocabulary. These characteristics make it an ideal book for the beginner, and upon its mastery he can build a substantial structure of Old Testament scholarship.

The preparation of this work was undertaken many years ago and almost completed, but an imperative call to undertake administrative duties necessitated its being laid aside; but, as the need was still keenly felt, the manuscript was completely revised with the assistance of my colleague, Doctor Culley, who also investigated one-half of the words independently and then carefully verified the references of the entire book.

JAMES A. KELSO.

LIST OF ABBREVIATIONS

<p>abs = absolute abstr = abstract acc = accusative acc to = according to adj = adjective adv = adverb or adverbial apoc = apocopated art = article A V = Authorized version caus = causative ch = chapter coll = collective comm = commentaries condit = conditional conj = conjunction cstr = construct dat = dative demon = demonstrative denom = denominative du = dual f = feminine Ges - K = Gesenius-Kautzsch's Hebrew Grammar Gn = Genesis Hast D B = Hasting's Dictionary of the Bible Hi = Hiphil Hith = Hithpael Ho = Hophal imper = imperative impf = imperfect indecl = indeclinable indef pro = indefinite pronoun inf = infinitive intens = intensive interj = interjection interrog = interrogative intr = intransitive Lat = Latin lit = literally loc = locative</p>	<p>m = masculine mg = margin M T = Massoretic Text n = noun neg = negative Ni = Niphal num = numeral ord = ordinal O T = Old Testament part = particle pass = passive per pro = personal pronoun perh = perhaps pf = perfect Pi = Piel pl = plural pr = proper prep = preposition pro = pronoun pt = participle Pu = Pual Qr = Q^e rê rel = relative R V = Revised version sing = singular subst = substantive suff = suffix, suffixes trans = transitive usu = usually vb = verb or verbal VSS = versions (?) = doubtful √ = root + = plus † placed before an article indicates "All passages occurring in O T have been cited" ‡ placed at the end of an article indicates "All passages occurring in Genesis have been cited" = equals</p>
